This Catalogue

is issued that our store may be brought into closer relations with out-of-town customers. Such a price-list must necessarily be incomplete. The constant changes taking place in our stocks make it impossible to place in its pages any but the most staple goods. Even then, unforeseen circumstances may prevent us from keeping in stock every article herein enumerated, while the fluctuations of the markets may affect the prices named.

In shopping by mail,

whether you get satisfaction or not depends mainly on two things

1. The skill, efficiency, and promptness of the house to which your order is intrusted.
2. The clearness and care with which you make out your order.

The first condition

we have endeavored to meet. Our system is most accurate; orders are filled by careful, intelligent people of large experience; our stocks are the largest and most complete to be found in this country; our prices will bear comparison with those quoted for equal worth anywhere.

The second condition

you are responsible for; and that you may aid us to give you satisfaction we ask careful reading of the following page. Every suggestion is born of experience, and is made in your interest; although you may not see it, there is behind each hint a practical reason.

Write plainly, and with ink;

pencil frequently becomes blurred and indistinct.

Give number of Catalogue

when ordering from this or any of our Catalogues. The number will always be found at top of first page of cover.

Give number of page in Catalogue

where the article you want is to be found; quote the exact wording there given; if the article has a number, please give it.

Give your post-office address carefully and plainly

with County and State, in every letter you write us, no matter how often. Where goods are to be sent by express, and the express office has a different name from the post-office, state the fact.

Sign your full name plainly

to every communication, that our answer may be properly addressed. A woman should always sign herself Miss or Mrs. When the latter, the husband's name is preferable. In no case should she sign her husband's name at one time and her own at another; it is sure to cause error and confusion.

Don't mix orders and other communications.

If you are writing about other matters at the same time that you are sending an order, *write out the order with complete address, etc., on a sheet of paper by itself, and sign it;* write your other communications on another sheet, and sign that also—both can be sent in one envelope.

Samples of dress goods.

You will find some suggestions on page 21 that will aid you in ordering samples. Always write your request for samples on a separate piece of paper from that containing other communications, and sign it. It can be sent in the same envelope with other matter.

How to order goods from samples.

When you order piece goods, please return the samples you select from, or a portion of each; and state plainly the *widths* and *prices*. If possible, make two selections from samples, to secure a second choice should the first be sold. It may save delay if you will mention whether, in case the goods are sold, we shall use our own judgment in sending others. Goods in such cases are selected by competent buyers employed for the purpose, and we rarely fail to please.

How to send money by mail.

The safest way is by post-office money order to the order of John Wanamaker, Thirteenth and Chestnut Streets, Philadelphia. Keep a record of the number of the order, and, should it be lost, the post-office will replace it. If post-office order can not be obtained, send express money order, or draft on Philadelphia or New York. Registered letters are seldom lost in the mails.

Credit and terms of payment.

Parties enjoying a recognized mercantile credit, who will take the pains to make that fact clearly known, may have goods charged and remit after delivery. In all other cases, when goods are not prepaid, we send by express, C. O. D. Prepayment is very desirable for the buyer, and should be made by post-office money order, registered letter, or draft. On orders of less than $5, unless the goods are to be charged, prepayment is necessary. Small parcels, if prepaid, can be sent through the mails at a less cost than by express. Cash differences in favor of customers are refunded at once.

Return of goods.

Our rules with regard to returning goods are as follows: Carpets, remnants of dress goods, mattresses, blankets, books, hair brushes, etc., are *not* returnable; some of them on account of their personal nature, others because of the difficulty in returning them in the same condition as when delivered. Almost all other goods, on the contrary, if returned *promptly* in the same condition in which they leave the store, will be cheerfully exchanged. When your goods have been returned and accepted, should we have nothing in stock wherewith to replace them, your money will be refunded.

How to return goods.

In returning goods by mail wrap the parcel securely, but do not seal or sew it. Send back the bill which you received with the goods in a separate envelope, and *be careful to have no writing whatever in the package* you return. The ordinary postage on parcels is one cent per ounce; should you inclose written matter, it would be two cents per ounce, and we should be obliged to charge you with the excess. When the parcel is securely wrapped and carefully addressed, place in the left-hand corner the name and address of the sender.

Time to make claims.

All exchanges must be requested, and all claims or complaints must be made, within *five days after you receive the goods.*

When orders are filled.

We fill most orders within a few hours of the time they reach us.

If you do not hear from us

within a reasonable time after writing to us, either your letter or our reply has gone astray in the mails. Please write again.

Dresses and Wraps

Fall and Winter, 1888-89

In addition to the production of our extensive factories, we have made most liberal selections from makers in all the world's fashion centres. The styles are numbered by thousands.

The illustrations on the following pages are intended to show prevailing styles for the Fall and Winter, and are sketches from garments displayed at our Fall opening.

How we can best serve you

If we were to give illustrations and descriptions here we might show what you wanted—the chances are that we wouldn't. At any rate we should not be able to present to you the novelties of the advancing season. Our aim is to give the out-of-town customer as good service at her home as if she were here. For that reason we ask you to let us know your dress or wrap want, with hints as to style and price, and then skilled people will select and send to you illustrations and descriptions of garments suited to your especial need. We believe that in this way we can give you perfect satisfaction. Our stock of ready-made dresses and wraps is so large that any desired garment can be had at almost any notch of price. Information as to your preferences should be as definite as possible.

Dresses and Wraps to Order

Most ready-made garments are, of course, in medium sizes only; should other sizes be desired they can be made to order at but small advance upon prices of the ready-made.

Garments can also be made in any special style, from fashion plate or other drawing, if cut and description be sent. Estimates of cost, with samples of materials and directions for measuring, will be cheerfully furnished. In making selections from samples it will be well to make first, second, and even third choice, as goods sampled may have been sold; if, in event of goods being sold, the selection is to be left to our judgment, the fact should be distinctly stated. Measurements should be as exact as possible; garments made to order are not returnable. Many customers leave style of making entirely to us: in such case we select newest styles that will accord with figure, complexion, etc.

A few illustrative styles of Women's Dresses and Wraps for Fall and Winter are shown in these sketches. Our stock is of the widest range, and almost any demand of style or price can be met. Illustrations and prices of any garment you may wish will be sent upon request. Give such information as will aid in making selection, with some idea of the price.

These sketches of Dresses and Wraps for Misses and Children show a few popular styles for Fall and Winter. Our selections are larger than ever before, and we believe there have never been offered finer goods at the price. Illustrations and descriptions of garments suited to your particular need will be promptly sent upon request. State clearly, age, kind of garment, and preferences as to material, color, trimming, etc., and give an idea as to price.

Millinery

Fall and Winter, 1888–89

Foremost as usual in hats will be fur felts, in all colors, every new and popular shade being represented. In cheap hats wool felt supplies the demand; or frames, that can be covered with any material, may be used. Beaver will be the popular material for children's hats.

As to the shape there is no rigid fashion edict, that point being decided entirely by the taste of the wearer. The variety of shapes shown for Fall and Winter wear is consequently very large.

Ribbons will again be the favorite trimming. These are handsomer than ever, the effects mainly running to oriental stripes and shadings of three and four tones. So many new ideas in the combination of colors make their appearance that shaded effects, already extremely popular, will be given an extended lease of life. Fancy feathers in many novel and odd effects, will also be much used. Ostrich feathers are taking a firmer hold and are gradually coming back to favor. Novelties in Fall millinery are felt trimmings and crowns, and many rich and stylish effects are shown

The extent of our ribbon business is too well known to need comment. Every kind of ribbon for every purpose is always in stock.

In trimmings for millinery we are always prepared to meet every turn and twist of fashion's whims. The stock changing so constantly, it is impossible to do more than quote the range of prices for any particular article. We will cheerfully furnish any other information needed. Photographs of trimmed hats or bonnets, hat shapes, feather trimmings, etc., will be sent if you will let us know the kind of hat, bonnet, etc., desired and give us an idea as to price.

We believe there are few, if any, millinery parlors in the country that surpass ours in size, light, or conveniences for the display of goods, and they are continually crowded with a magnificent line of trimmed goods, Parisian bonnets, and round hats, our own importation, and with the production of our work-rooms. We always have a large variety of trimmed mourning goods.

How to Order Millinery

When ordering trimmed millinery our customers will insure satisfactory filling of their orders if they will state

1. Their general appearance—whether stout or thin, tall or of medium height, dark or fair, and whether child, miss, young woman, etc.
2. Style wanted—whether large flat brim hat, large hat rolled at side, medium rolled hat, turban, walking hat, poke, toque, small bonnet, medium bonnet, bonnet for middle age, etc.
3. The color.
4. The material—whether fur felt, wool felt, hatters' plush or made over a wire frame.
5. The trimming—whether ribbon, ostrich feather, flowers, lace, net, ornaments, fancy feathers, quills, wings, metal (gilt, silver, steel, or cashmere), velvet, etc., and whether any one of the above or a combination, and if the trimming is to be of color of hat or combined according to our judgment.
6. An approximation of price—the size of our stock enables us to come very near to almost any price named.

Silks, Satins, Velvets, and Plushes

We have never had a more complete and satisfactory stock of silks, satins, and velvets than we offer for the present season. With the wants and preferences of our customers in mind we have made liberal selections from the best known makes—the richest yields of foreign or domestic looms. These fabrics are gradually resuming their once prominent position as an article of woman's dress, silk especially having already regained its former favor. The extreme lowness of prices for silk goods, and the fact that no other fabric can vie with silk in rich and graceful appearance, have been largely instrumental in effecting the restoration. Stripes and plaids will be worn to some extent. Brocades are again coming into vogue, and are particularly adapted to the new style of costumes for the Autumn and Winter. Many new shades make their appearance, among which may be mentioned

Scarabee	Amiral	Africaine
Absinthe	Porcelain	Gris Russe
Golfe	Vulcan	Saule
Tzigane	Praline	Florentine
Orient	Oxide	Chasseur
Vestal	Serve	Prairie

Colored velvets will be extensively used for street costumes and in trimming woolens, for which purpose they are very effective. They come in all the new shades.

Satin rhadamé is still fashionable to some extent, as are also the finer grades of satin duchesse.

As always, we are completely prepared to meet all the demands of the season. The novelties are rich and varied, and give promise of meeting with much favor. Besides all the newest tints for evening wear we offer

Pekin façonné and moiré antique
Moiré antique façonné filets satin
Quadrille faille and satin, thirteen effects
Damas moirée, extra rich
Peau de suède, the latest weave, in four grades
Bengaline checks and stripes, with plain to match
Brocades, in black and colors
Matelassé and brocatelles
Persian effects and armures

In black silks we exercise the greatest care, and allow only the product of honest makers to appear in our stock. Gathering the most practical methods of manufacture from all countries, we are enabled to offer to purchasers the newest weaves as fast as they appear in the great centres of fashion.

We carry all makes of reliable black silks of foreign and American manufacture, and offer full lines of the following well-known brands:

C. J. Bonnet et Cie	A. Giraud et Cie	Bellon Fils
Antoine Guinet et Cie	Poncet et Cie	Princess

each equally celebrated for the production of newest weaves, such as

Venitian Armures	Satin Orient	Velourine
Faille Diament	Radzimir	Mascott
Satin Luxor	Peau de Soie	Ottomans
Perfection	Marquise	Turk Satin

These are our own direct importation. Every trick of weave at home or abroad is here in ample assortment.

Black Silks

We sell black silks under a complete guarantee that such service as may reasonably be expected will be had; the service, of course, varies with quality and price. Extreme care, however, is used in selecting our stock, that none but silks of known worth shall find a place in it—silks that shall give good wear and be of a durable black.

Dress Goods

Materials for Autumn and Winter wear in women's dress show no falling off in variety or in handsome designs, and never before did they show such a combination of simplicity and rich effect. The wit of the designer and the skill of the weaver have been taxed to the utmost. From the productions of makers the world over we have selected the best. We have nearly every known fabric on our counters, in almost endless variety of style and coloring. The assortment is so constantly changing that we can do little more here than give names and prices, with a general idea of the nature of the goods. The goods themselves are best shown by samples.

Samples of Dress Goods

We willingly send samples of any of our dress goods, with prices attached. That we may be able to serve you intelligently in this respect we ask you to be explicit in telling us what you want. Information upon the following points will greatly aid us in making selections for you, and will insure goods suited to your particular needs, without burdening you with unnecessary material

1. The kind of material, or some idea as to the goods preferred.
2. The color,—or, if no pronounced color, whether light, medium, or dark
3. The style—whether plain, figured, striped, plaid, etc., and whether quiet, medium, showy, etc.
4. Give some idea as to personal appearance—figure and complexion, and whether child, miss, young woman, etc.
5. The price—as near as possible. You will find prices quoted in the following lists for many of the leading lines of goods.

Should samples not prove satisfactory kindly advise us at once, stating wherein the fault lies.

If you prefer to intrust the selection of the goods to our skilled buyers, the above information should insure a selection that will give you satisfaction.

Always write your request for samples on a separate sheet of paper, and sign it. It can be sent in the same letter with other correspondence.

Blank forms for this purpose are to be found at page 2.

Novelties in Colored Dress Goods

The prevailing designs in so-called novelties are stripes—wide and narrow, and in clusters of wide and narrow. Rich effects are produced by clusters of stripes on a wider ribbon stripe. The color combinations are marvelous in their quiet beauty, while the combination of silk and wool gives a richness of appearance that is very pleasing. The bordered effects in all-wool cloths and serges are something entirely new, and promise to be very popular. All the new shades are represented. Whatever of beauty and worth the looms of the world produce is here in rich assortment, many of the designs being ours exclusively, obtainable nowhere else. The list following will indicate a few of the many materials and styles, with prices:

Serge grounds with silk-and-wool stripes, 40 inches wide, 1.25 1.50; plain to match, 1.00

Imported and Domestic Colored Dress Fabrics

In the quieter styles of dress goods the thought of maker and designer and weaver has been no less busy. A few new weaves appear among the plain fabrics, while new names are given to many old-time favorites, in the weave of which none but the expert could detect a difference—and even the expert would be likely to make mistakes. In the fancy designs stripes, plaids, and checks predominate. The stripes and plaids are in every conceivable variety, from almost invisible to the boldest lines. Plain goods, in corded effects of every degree of prominence, with cashmeres and all-wool and silk-warp Henriettas, will be much worn. They come in all the new shades. We name many of the most prominent materials, with prices:

Black and Mourning Dress Goods

For years we have devoted much attention to this class of goods, and have the largest, richest, and most complete assortment to be found in the country. Standing in most intimate relations with makers the world over, every new idea in weave or design comes immediately to our counters. The new weaves for this season are many, while some old favorites come forward bearing new names. Plain goods, such as cashmeres and silk-warp Henriettas, and striped and corded effects hold the foremost place in popular favor, and promise to be the fabrics of this class most worn during the Fall and Winter months. Linens

We are doing the largest linen business in this country—and all in pure linen. There are linens and linens—linens that are part cotton, and linens every thread of which is pure flax. We sell no cotton-and-linen. Don't keep it for sale. Where there is tow in the linen we tell you.

Such a business as ours doesn't come without reason. It means that the shrewdest linen buyers hereabout—and the shrewdest are usually the biggest buyers—have found that the linen bought of us, whether table linen, towelings, or what not, represents the best of money's worth of pure linen. That is why the business came, and that is why it continues to grow.

Our table linens are the best for the price that linen skill and careful buying can furnish. Every kind, from the plainest cloth to the finest Dresden damask.

Towels and towelings in every trick of weave and variety of pattern.

In handkerchiefs, the variety on our counters is always of the largest. It should be remembered that we guarantee every thread of our handkerchiefs to be pure linen. No cotton in them.

And so the story goes through all our linen stock. In every kind of linen the best the world's looms can furnish, at prices which are loaded with but one profit, and that a small one.

Blankets, Comfortables, etc.

Our blankets this season deserve your careful attention. They will compete with the world for quality and price.

A few points for everybody:

The best way to buy blankets is by the pound, the price per pound depending on the fineness of the wool.

A fine cotton warp is a help to a blanket if the filling be pure wool. We tell the weight of cotton in the warp of our blankets.

Let the blanket be big enough, with plenty of tuck-in possibilities. For a double-bed blanket 2¼ yards is none too wide, and 2½ is better. But every inch adds to the weight; so expect the price to advance also.

11-4, 12-4, 13-4, etc., mean nothing. We give you the actual size in inches.

We have every kind of proper blanket. The following list gives a hint of values. Patterns of borders in any quality of blankets are best shown by our photographic prints.

Laces and Rufflings

As in other lines of goods, just so we lead in laces. The world's workers and the world's machines send their best to make our stock complete. We use our lace skill and experience to bring the choicest patterns to you at prices that will tempt your buying thought.

The trend of fashion is toward more lace use. Machinery is meeting the demand for cheaper laces. There are better results than ever before from the machines.

Imitation Valenciennes and Oriental promise to be the white laces most used during the coming season, while Chantilly will lead in the black.

We give illustrations and descriptions of the leading laces, with the range of prices in the different widths of each kind. The patterns in each make are legion, and with so large a business as ours are constantly changing. The style illustrated is merely to give you an idea of the leading features of its class. Photographic prints showing, in actual size, the designs on our counters at the time of sending, will be mailed to you upon receipt of postal-card or other request. We ask that you will state the kind, width, and approximate price of the laces you may be in need of, that we may select prints for you intelligently.

Hand-made Laces

Brussels Point

Brussels point, white: the oldest of laces; has a round mesh formed of the finest Brussels net; the designs are combinations of roses, leaves, and medallions, to which is frequently added a double raised leaf, giving a general effect of the most delicate and filmy character

1 inch wide,	2.50 to 6.50 a yard

Rufflings

We sell perhaps twice over as many ruchings and rufflings as any other house hereabout. Hundreds of styles we make ourselves, and every new pattern of any worth, at home or abroad, finds quick way to our counters. The assortment is always of the best.

Our new method of showing goods by means of photographic prints places the latest styles of rufflings always at the call of the out-of-town buyer. A postal card request will bring by return mail prints that will show at a glance the newest and best designs. We can make better selections of prints if you will state for what purpose the ruffling is to be used and about the price you wish to pay.

Hamburg Embroideries

Why Hamburg? The story goes that the Swiss inventors of the machine for making these embroideries gave the name of a foreign city to their production in order to throw curious persons off the scent, lest some unscrupulous competitor should steal the invention. Everybody knows Hamburg embroideries. But everybody doesn't know the refinement of Hamburgs—Point de Venise. Like frost on a window-pane. Every thread of the fabric wrought upon is completely covered by the dainty, delicate tracery. We give a few illustrations to show the character of the work.

A word as to how we can best serve you in these goods. We have tens of thousands of patterns, constantly changing—styles coming, styles going. Illustrations of embroideries we have now will not show those we shall have a month hence. By means of photographic prints we are enabled to show you the designs on our counters at any time. These prints give the narrower patterns in actual size, the wider patterns being, of course, somewhat reduced. You will find widths, qualities, and prices enumerated below. If you will inform us of the quality and width of the embroideries you may want, together with an idea of the price you wish to pay, we will send by return mail photographs of the latest designs. A sample of material will also be sent to indicate quality.

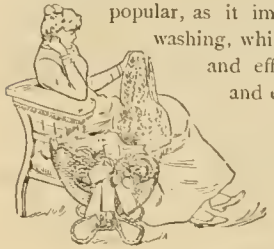
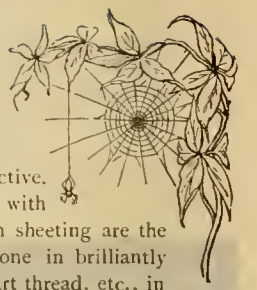
Art Embroidery

There has been of late a change in the style of embroidery, fine, expensive materials somewhat giving place to coarse, heavy fabrics covered with conventional figures in outline. The material mostly in favor is cotton or woolen Bolton sheeting, in cream or bright colors. The cotton sheeting can be used in cream only, as the colored cotton material has a very common and unpleasing appearance when embroidered; the colors are also found to fade rapidly. Designs, as stated, are conventional, and are worked in outline or couching stitch, or in darning stitches of various kinds, with Bargarren art thread, a coarse linen thread, which comes in all colors. This thread is something quite new, and has become very popular, as it improves in appearance with wear and washing, while the work done with it is very speedy and effective. Hamburg wools, rope silk, and etching silk are also used for this purpose. Portières, curtains, table covers, pine pillows, and sofa cushions are a few of many articles to which the new style of embroidery may be applied.





China and India silks are the principal materials used for draperies, ornamented with outline embroidery and painting.

A novelty in embroidery, just introduced into this country by us, is the "Venetian work." The results obtained by this method are strikingly rich and effective. Cloth, felt, frieze (a new woolen cloth with heavy nap), and colored woolen Bolton sheeting are the materials used, the embroidery being done in brilliantly blended shades of silk, chenilles, metal art thread, etc., in various stitches. The designs run closely and gracefully over the material, while the parts not covered by the embroidery are cut out, allowing the satin lining, of a matching or contrasting shade, to show through. The results obtained have seldom been equaled in beautiful and artistic effect, and the new work will undoubtedly become as popular as it deserves to be.

Madame Mertens, who is a recognized authority in this country in all matters pertaining to art needlework, is in charge of this branch of our business. Orders for any kind of fancy work will be filled with great care at reasonable prices.

Aprons

Our stock of aprons comprises all kinds, from the heavy muslin and cambric adapted to the wear of nurse-girl, waitress, or cook to the fine embroidered nainsook apron suitable to the most fastidious taste. The styles named below are but a few of hundreds. The finer grades are our own exclusive designs, made by us for fine trade; imitations may possibly be found elsewhere; but the handsome styles and fine finish of our goods mark them as worthy the favor they have received.

The Wanamaker $3 Wear-well Shoe

To meet a popular demand we have been striving to offer the best Men's Three Dollar Shoes. The uppers are excellent calf-skin, seamless, except at the heel. The inner and outer soles are solid and durable, the insole being perfectly smooth, without thread or tacks. You can have them in Button (plain toe), Lace (plain or tipped toe), or Congress (plain toe). You can order by giving your size and stating whether your foot is medium or wide. Upon receipt of the money, with order, we will forward by mail, post-paid, and will register for ten cents additional. If the money does not accompany the order the shoes will be sent at your expense, in the usual way, by express. The price is net to every one.

Men's Collars and Cuffs

Three Grades

Every thread best Irish linen

Showing scarf-bolding tab

The name tells the story. Outside and inside every thread is linen—the best of linen. There is no other collar or cuff that wears so well, and but one other (our "Imported") that is so well made or that equals it in appearance. The scarf-holding tabs attached to the standing collars of this grade are a convenience that can only be appreciated by use.

Imported
: In every way as well made as our first grade, but the filling is cotton; that doesn't show—it tells a little in the wear. No tabs to the collars.

The Wanamaker
: In collars only. The same as the "Imported," but one thickness of cotton less in the filling.

Zylonite
: A flexible, good-wearing imitation of laundered linen. Unaffected by moisture. When dirty, cleans with a sponge.

Hats

The following illustrations of the most popular styles of hats and caps are necessarily a very incomplete representation of the stock we carry, which is the largest and most varied in the country. We have a full line of all the standard shapes and colors of the most reputable makers. It, however, frequently happens in a stock so rapidly changing as ours that an article mentioned, of which at the time we have a complete assortment, may be entirely sold out before your order is received. In this case we select from the nearest we have, or make to your order if desired, the latter usually taking 10 days from the receipt of order. We suggest that in ordering you lean a little on our judgment; the very best description you can give will materially assist us in making a selection.

Directions for Measuring.

With a tape-line take the number of inches around the head, in the position where hat is usually worn; if a stiff felt or silk hat has been used, give the exact number of inches of length and width inside. If any peculiarities exist (as round head, or wide back and narrow front) they should be noted.

Measures in inches reduced to sizes.

19¾ inches,	size 6¼	22½ inches,	size 7⅛
20¼	6⅜	23	7¼
20¾	6½	23½	7⅜
21	6⅝	23¾	7½
21½	6¾	24	7⅝
21¾	6⅞	24½	7¾
22¼	7		

Articles such as hats or caps *should never be sent by mail*, as they are liable to damage, owing to the pressure to which packages are subjected in the mail bags. We cannot agree to accept for exchange any article so sent.

Remember that in ordering by mail you cannot be too explicit in your description.

Fans

The prettiest fan conceits and combinations from Vienna and Paris side by side with no less tasteful ideas of makers at home. Such a collection of air stirrers seldom finds itself under one roof. A novelty is the Tuxedo shape—easy to handle and very effective as a breeze producer. The taste of skilled buyers is at your service to make selection for you, or photographs will aid you in choosing for yourselves. In sending for photographs the style of fan desired should be given and also some idea of the price you wish to pay. The price-list herewith indicates the range of cost in different materials.

Trunks and Traveling Bags

Trunks

Don't care to take space in a Winter Catalogue to show Trunks as they should be shown. We have every kind from the cheap one that won't stand much travel, but will stow away goods, to the iron-bound affair that makes even a hardened baggage-smasher respectful. And every form of pack-in luxury besides. Illustrations and prices will be sent you if you will let us know.

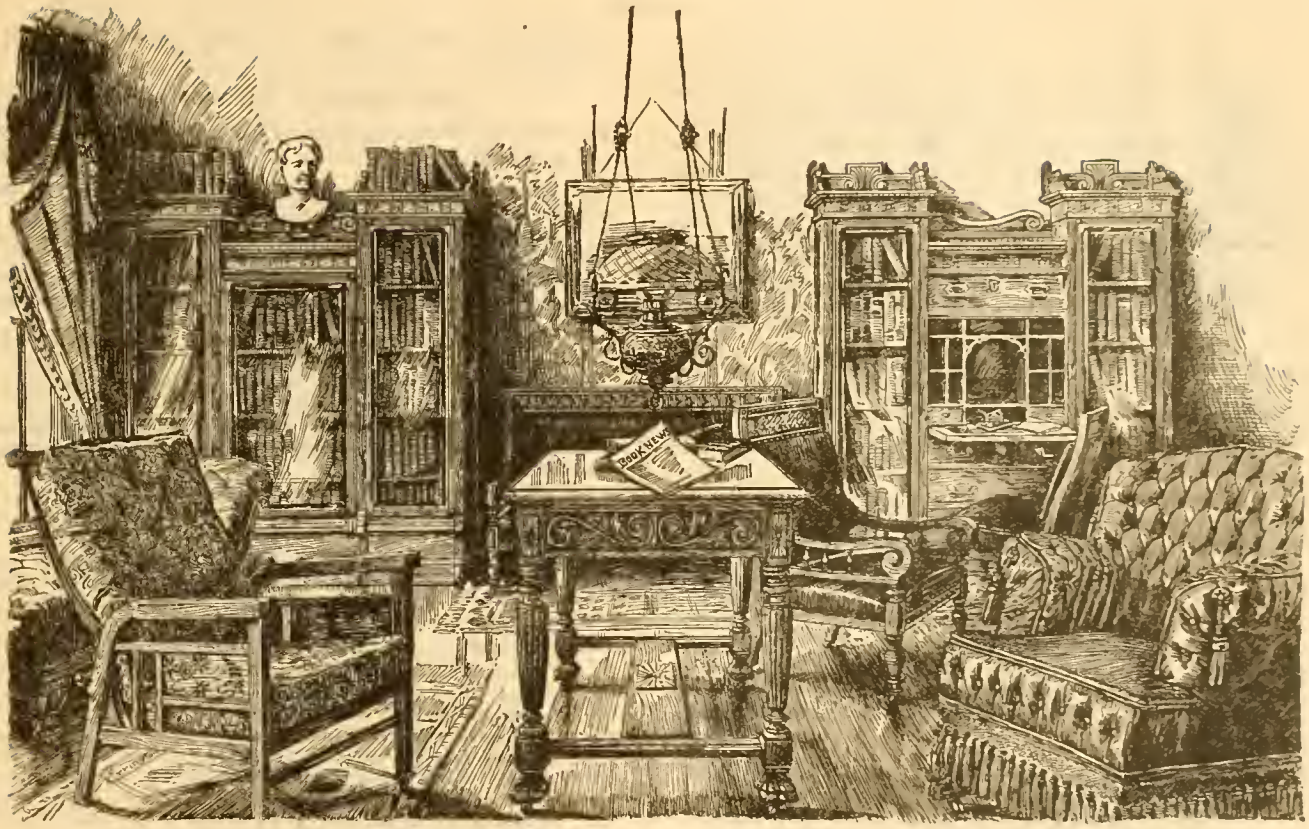
Furniture



Maybe you don't know it. The biggest Furniture store in America is in Philadelphia—is here. And the steady growth of our trade shows how people appreciate efforts to do a Furniture business as it ought to be done—solid worth, no shams, fair prices.

The above illustration is from "Housekeeping Art—Suggestions from the Wanamaker Stocks of Everything for the House," which has been published to tell you something of what you and we, working together, may do to beautify the home. The book will be sent you free of charge if you will let us know you wish it.

Carpets

Our carpet store, with its perfect light and the gathering of all styles of carpets and rugs on one wide floor, is an attractive place to visit. If you can come to the store you will find every facility for choosing wisely and quickly. If you cannot come, state fully what you are in need of and we will gladly send you any information you may wish, or our skilled buyers will make selection for you.

The carpet store has become so large, the stock so extensive, that you may feel sure of finding here a wider range of styles and designs than anywhere else, while the great volume of our business in this line, constantly increasing, is an assurance that the prices are right.

Church furnishing is with us a particular specialty—also the furnishing of hotels, steamboats, and public buildings of all kinds; for such contracts we keep a stock of carefully selected goods, as well as a staff of skilled workmen, for measuring, fitting, etc.; we will cheerfully furnish estimates, and execute orders promptly and satisfactorily.

Directions for Measuring.

Parties sending plans by mail should follow these general directions for measuring:

Draw a complete diagram of the rooms or spaces to be carpeted, as nearly correct in shape and proportions as possible.

Measure with a rule or yard-stick, in preference to a tape-line, and state dimensions in feet and inches.

Measure from the straight side, and give length and depth of all windows, doors, and other recesses, jogs, etc., separately; also, extreme length and extreme breadth, to prove correctness of the shorter measures.

In measuring bay windows, the diagram should be accurate, with depth, width, and length of beveled sides exactly stated.

If a room be narrower at one end or side than at the other, give the two measures from opposite corners, diagonally.

When several connecting rooms or spaces are to be carpeted with the same pattern, more detailed measures should be taken, and all passages and doorways fully shown.

Measures for bordered carpets should be very exact.

Indicate front of house on diagram of each floor, and the direction you wish pattern to run by the figure of an arrow.

Measure stairs on the wall side, giving the entire length, with ½ yard added for slip. Wide steps at bottom can be mentioned separately.

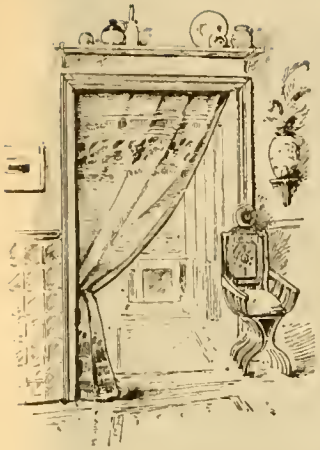
Upholstery



The extent and variety of the Upholstery stock will be indicated by the lists that follow. In curtain materials, furniture coverings, and the like, selections are best made from samples, which are willingly sent on application. In ordering samples, however, it is requested that you be as explicit as possible in telling us what you want—the color (or color of wall, carpet, and furniture), the price, and the purpose for which the material is to be used. This will enable us to send you samples of goods exactly suited to your needs, without burdening you with unnecessary material.

When ordering materials, it will promote the filling of your order if it be stated in what lengths you propose to use the goods. As goods frequently come in short lengths, orders for a given number of yards might often be filled in two or more pieces when it would be impossible to send the goods in one piece.

When ordering curtains please state whether you wish heavy, lace, or Madras effect, and, if heavy or Madras curtains, your preference as to color, design, etc. Information that will guide you in this respect will be found in the following price list.

We give especial attention to the decoration of private residences, taking orders for the entire furnishing of the house to the smallest detail, and using the utmost care that effects produced shall be appropriate and consistent with the immediate and general surroundings. Only the most skillful and careful workmen are employed, superintended by designers and decorators of tried merit. As everything is furnished by us from our own stocks, the most extensive and complete in the country, we are enabled to exercise careful supervision over each article and can thus assure complete satisfaction.

Carpet Sweepers: The "Wanamaker" sweeper, made especially for us, we believe to be the best. Wouldn't bear our name if we didn't think so. More than 10,000 now in use bear daily witness to its merits. It is guaranteed to do broom work, the pressure of the brush on the carpet being regulated by the amount of push on the handle. When not in use, the handle stands up—never in the road. Dumps dirt by a pressure on top (see cut). A rubber band protects the furniture from injury. No bands or cog-wheels to get out of order. And there is merit in the price—it is but $3.00. We have other kinds too: The "Bissell," 1.65 2.00; "Grand," large, for churches, etc., 4.50

Refrigerators

There is no better Refrigerator than the PURITAN. Years of careful testing and the opinion of wise housekeepers have put that beyond question. The size and pattern suited to any particular purpose can be learned at a glance from a little pamphlet we publish— "Appliances for the Use and Care of Ice." Many other useful ice things are also there shown in condensed shape. The little book will be sent by return mail if you will let us know you need it.

Fireplace Furnishings

Increased use of open grates has stirred up the workers in brass and iron, and the results are surprising. Never before such tasteful ornaments for the fireplace. Photographs of designs will be sent if the article and a limit of price be mentioned. A moment's study of the following list will show how the prices run.

Andirons, brass, 12 inches high, 4.75; 18 inches, 6.00 7.50; 19 inches, 15.00; 20 inches, 7.50 9.00 9.50 16.50; 20½ inches, 18.00, 21 inches, 20.00; 24 inches, 38.00

Agate Iron Ware.

Made of sheet iron coated with a pure vitreous enamel of great tenacity and power of resisting acids. It is as easily cleaned as china, and will not rust. Marion Harland says of it: "Those who use Agate iron ware need no recommendation of it. Eminent chemists certify to the safety, durability, and cleanliness of the materials employed in its composition. The shapes are unusually graceful for household and kitchen utensils. It is easily kept clean; is light, strong, and pleasing to the sight by contrast with the black iron and dim or rusty tins. After several years' trial and thorough satisfaction with this ware, editorial attestation to its excellence is an act of simple justice to the manufacturers. It is given in hope that others may share the comfort and pleasure attendant upon its use."

The following are a few of the useful articles made in this ware. A complete illustrated price-list will be sent on application.

Lamps

The "Rochester" is the King of Lamps. Because we recognize this, the Rochester holds first place in our Lamp store. The best always holds first place here. Every requirement of a perfect lamp, steady flame, perfect combustion. But the price is sometimes a bar. High merit always costs more than mediocrity. So a host of other kinds of lamps—with the Duplex at the head of these.

Table lamps are not sold complete. The price given for a Rochester table lamp includes everything except the shade, while the price given for any other kind of table lamp is for base only—the burner and the shade are extra.

Prices for piano and banquet lamps do not include shades.

All other lamps are sold complete.

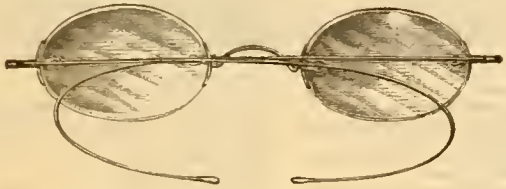
Optical Goods

All the lenses for spectacles, microscopes, etc., that the world uses are made by a very few manufacturers. Every one who sells the goods must needs go to these same manufacturers. It would be stupid for us to select any but the best. All our goods are the choice of an educated practical expert in this business. More extended information of articles of this class will be found in our price-list of spectacles, opera glasses, microscopes, telescopes, thermometers, barometers, photographic materials, etc., which will be sent on application. We have everything needed by the amateur photographer.

Spectacles, Eye Glasses, etc.



The best way to correct any eye trouble is to consult a physician who makes a specialty of such work. If your eyes are perfect for all ordinary purposes, and you simply find trouble in reading or sewing, and you live at a distance, or where you cannot consult a physician, rather than let your eyes go without help, describe your seeing ability the best you can, and we will send you full directions for measurement. Or send us $4.00 as a deposit and we will send by return mail a set of trial lenses with full instructions. When you return the lenses your money will be refunded entire. You can then buy spectacles or not as you please.

We make spectacles from physicians' prescriptions, and do all kinds of repairing.

Send 5c for a wooden mailing box to send your glasses for repair.

Lorgnettes

The French fashion of carrying lenses in frames with a handle and case handsomely carved out of tortoise shell has become popular among ladies here. They are used principally at the opera or other assemblage by ladies whose eyes are imperfect for distant vision, and who find them more convenient than wearing eye glasses or spectacles.

The carved patterns of lorgnettes come in designs too numerous to describe; the prices given are dependent upon the amount of carving and fineness of shell:
- tortoise shell, plain, 4.00 to 8.50 ; carved, 6.50 to 17.50
- zylonite (imitation shell), 3.50 to 6.50
- silver, 15.00 to 35.00
- silver-plated, oxidized, or bright, 2.50 to 4.00
- plush cases for lorgnettes, 90c

Amateur Photography

Previous to 1880 the amateur photographer either had a wagon with a dark closet or carried a dark tent, in addition to numerous bottles of chemicals. To take a picture meant to mix the proper chemicals in the dark, coat a glass plate with them, and quickly, before it dried or crystallized, expose it in a camera, mix other chemicals, develop, wash, and dry it on the spot, with perhaps a picture, perhaps not. Much judgment, skill, and practice were required to obtain success, and amateurs were few.

Now, most of the judgment and skill part is done in a factory, and plates need not be fresh made for every picture. They're sold in dozen packages, ready any instant, and will keep for years. Chemicals are sold already mixed, and any boy or girl of 10, with average intelligence, can use them. The first step is to buy or borrow a camera. First select the size of picture you want to make; next the total amount of money you are willing to spend—the rest is easy. A camera, lens, tripod, plate-holder, and case together are called an outfit, and are included in the following prices—

To make plate of	4 x 5 inches	5 x 7 inches	5 x 8 inches	6½ x 8½ inches
Camera of stained wood, swing back. Waterbury lens	8.00	....	9.50	....
Camera of butternut or ash, swing back, Favorite	9.00	10.80	10.80	12.60
Camera of polished maple or whitewood, New Model, single swing	10.80	12.60	12.60	14.40
Camera of polished mahogany with rack, New Model Improved	12.60	16.20	16.20	19.80
Camera of polished mahogany, Waterbury lens	10.80	14.40	15.25	18.00

To take stereoscopic pictures choose a 5 x 7 or 5 x 8 camera and add $6.50 for extra pair of matched lenses

To take the picture and have a photographer develop and finish it for you, the foregoing will be all you will need. If you want to see the fun all the way through, the following developing outfit, containing only what is absolutely necessary, will be needed—

	4 x 5 inches	5 x 7 or 5 x 8 inches	6½ x 8½ inches

Baby Carriages

We have almost as many styles as there are babies to use them. If you wish to see some of the most desirable, our illustrated price-list of baby carriages will show them to you. It will be sent you on receipt of a postal-card request. You can have any kind of carriage you want, as all carriages are fitted by us; the only things to be considered are your taste and your pocketbook. The prices and quality are right. Much care is given to packing and shipping, and carriages can safely be sent to any part of the United States.
